Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/569,829	Applicant(s) FUJIKAMI ET AL.	
	Examiner Livius R. Cazan	Art Unit 3729	

– The MAILING DATE of this communication appears on the cover sheet with the correspondence address –
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on 6/24/2004. It is noted, however, that a certified copy of the 2004-186478 application has not been received.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. **Claims 1-4** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In particular, in **claim 1**, line 3, the phrase "drawing a wire formed by coating raw material powder for a superconductor with a metal" renders the claim indefinite since it is unclear whether or not the drawing is simultaneous with coating. Likewise in line 3 of claim 3.

Regarding claim 3, the elements in parentheses in lines 5 and 11 render the claim indefinite because it is unclear whether or not these elements are part of the claimed method steps. As such, the possible values for n and k cannot be ascertained, they could even be 0 or 1 or any other numerical value. Only reference numerals should be placed in parentheses. Also, it is unclear what is meant by "-th" in line 19.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. **Claims 1-4, as best understood**, are rejected under 35 U.S.C. 102(b) as being anticipated by Kaneko (US6498302)

Kaneko discloses (refer to Example I in col. 10) forming a wire by coating raw material powder for a superconductor with a metal (Ins. 46-49), drawing the wire (Ins. 49-54), thereafter rolling and sintering the wire twice (Ins. 49-62). There is an interval between the rolling and sintering steps when the wire is held at a temperature above 80 degrees C (such as while heating up to 850 degrees C), the interval being shorter than 7 days. It should be noted that as currently claimed even only the first rolling and sintering steps read on claims 3 and 4, because the value of n cannot be ascertained, and, as such, a single step of rolling and a single step of sintering are required by the claim.
